130

CHEVRON 130

**Oak
Trivor
French Herringbone 130**

A classic oak floor that is finely softened with a pearl white tint. The boards feature subtle natural accents, which is additionally emphasised by the brushing process. The floor's slenderness and lightness is emphasised by the 4-sided micro-bevel. It is finished in matt lacquer.

HERRINGBONE FLOORING CONSTRUCTION

Wood protection system

UP to 7 layers of UV-hardened
acrylic lacquer
or a system of natural oil.

CROSSLOCK joint

Crosslock is the joint, which facilitates the arranging of the Herringbone Pattern in a clean, quick and easy manner. Its profile allows the installing of the above-mentioned pattern without the need for both the right and left side floorboards at the same time.

Surface layer

Selected European wood of the appropriate thickness, protected with a lacquer or oil finish.

Middle layer

Coniferous layer arranged laterally to the surface and a bottom layer. Such construction limits the natural movement of the wood and prevents gaps, cracks and squeaking - even in constantly changing weather conditions.

Bottom layer

Coniferous wood arranged laterally to the middle layer reduces the natural work of wood.

The advantages of the Crosslock joint

- A clean, quick and easy assembly without using special tools
- An arrangement system which does not require using both right and left floorboards
- No risk of damaging the joint during assembly

*Detailed information regarding the installation and use of the Herringbone Pattern can be found in the assembly instructions and the guarantee certificate.

width 110 mm, length 660 mm, brushed, matt lacquer

CLASSIC HERRINGBONE 110

Oak Cappuccino Classic Herringbone 110

Oak floor in a pearl-white colour. The boards are brushed, which accentuates the natural grain of the wood, and the four-sided micro-bevel emphasises its slimness and lightness. The boards are finished in a subtle matt lacquer.
