

# FLOORING IN PARISIAN STYLE

*in other words...*  
renaissance  
of french  
herringbone

*...and*  
**CLASSIC  
HERRINGBONE  
IN MODERN STYLE**

# CHEVRON 5"

Wood floor dimensions:  
5" x 28.5" x 9/16"

**Wood protection system**  
*UP to 7 layers of UV-hardened  
acrylic lacquer  
or a system of natural oil.*

# CHEVRON FLOORING CONSTRUCTION

## Tongue and Groove Wood Flooring

A traditional method of installing classic wood flooring. Correctly marked, left and right boards, allows the chevron pattern to be laid. We recommend a glue down and staple installation of this tongue and groove wood flooring\*

Surface layer  
*Selected European wood of the appropriate thickness, protected with a lacquer or oil finish.*

Middle layer  
*Coniferous layer arranged laterally to the surface and a bottom layer. Such construction limits the natural movement of the wood and prevents gaps, cracks and squeaking - even in constantly changing weather conditions.*

Bottom layer  
*Coniferous wood arranged laterally to the middle layer reduces the natural work of wood.*

5

# CHEVRON 5"

**Oak  
Trivor  
French Herringbone 5"**

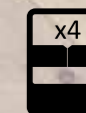

A classic oak floor that is finely softened with a pearl white tint. The boards feature subtle natural accents, which is additionally emphasised by the brushing process. The floor's slenderness and lightness is emphasised by the 4-sided micro-bevel. It is finished in matt lacquer.

acrylic lacquer  
or a system of natural oil.*

**HERRINGBONE FLOORING  
CONSTRUCTION**

**OPTILOCK Joint**

Optilock, it's a new Barlinek head joint, which makes the installation of classic herringbone precise, quick and easy. Its profile allows the assembly of the above pattern without the need of having the right and left boards. \*

**THE ADVANTAGES OF  
THE OPTILOCK JOINT**

- *Glueless assembly*
- *No right or left boards*
- *Quick and precise installation*
- *Less material waste*
- *Cleaner installation*

**Surface layer**

*Selected European wood of the appropriate thickness, protected with a lacquer or oil finish.*

**Middle layer**

*Coniferous layer arranged laterally to the surface and a bottom layer. Such construction limits the natural movement of the wood and prevents gaps, cracks and squeaking - even in constantly changing weather conditions.*

**Bottom layer**

*Coniferous wood arranged laterally to the middle layer reduces the natural work of wood.*

# CLASSIC HERRINGBONE 5"

**Oak  
Trivor  
Classic Herringbone 5"**

A herringbone oak floor with a delicate creamy-white colouring. Boards enriched by brushing and protected with matt lacquer.
